

Pharmacy Technician

(36 week program)

**You know the difference between a job
and a career.**

A career lets you work at something you love.
It earns you respect.
It opens the door to the future.

**You've wished for a career, and Robertson College can
make it come true.**

A Profession in Health Care

Helping others is what Health Care is all about. As a Pharmacy Technician you're there, helping and caring for people. You help provide a critical service to others . . . and you earn their trust and respect.

A Challenging Role

Health Care is an ever changing field . . . always adapting to meet new challenges. With on going changes in legislation across the country, the role of a Pharmacy Technician will become increasingly important.

Several Options

Pharmacy Technicians are in demand. You might choose to work in a neighborhood pharmacy or a large retail operation. Perhaps you wish for a career right in a hospital setting.

The options are all there.

You can choose the path that's right for you.

A Career with a Future

Thinking of relocating in the future? Pharmacy Technicians are in demand right across the country. It's a career that opens the door to a world of possibilities and invites you to step through to a new and rewarding future.

**Robertson College . . . open the door to your
new career!**
